Children of the Light and Harmony, I greet you in the Name of Light, of Happiness, of Harmony; and while you are standing for a few moments, will you accept those Qualities flowing into your mind, body, and feeling world, then out into your world of action, knowing that that is the Activity sustained by which you may have the great Perfection of Life flowing forth at your Command. Great are these days on Earth—wondrous as you would see them from Our Height. Tonight I shall try to have you feel that and to remain within your feeling world in your coming Victory of the Light.

I tell you, O Children of Earth, with the fullness of that Harmony of the Spheres that mankind has so long talked about, written about, and called for—so at last that great Harmony of the Spheres is beginning to find Its Action through the children of Earth! And as this intensifies, there will be beloved ones all over America through whom great Harmonies will flow. Your orchestras will take Them up, and the Healings and the Freedom of Life that will flow forth through the audiences will show to the world the Dominion of Harmony. *(applause)* Thank you so much.

Since the Perfecting Activity of all mankind is your attention to your "Mighty I AM Presence," then behold how in the long ages of waiting when We so longed to release these great Harmonies that would so perfect mankind—and so hold the steady Balance in the activity of the feeling world of mankind so that Life would reach Its Apex through human form; but still, as density grew and the greater inharmony increased, We found it impossible to release and carry through sufficiently clear for mankind to have the great Blessing that has so long awaited them.

© 2003 Saint Germain Foundation

Again tonight as some of the Great Ones have said to you, are you not fortunate, most fortunate in having sufficient Light within you that drew you to this great Activity by which, in your Call to the "Presence" of Life, you might release that great Harmony in all your requirements! Now remember that your "I AM Presence" is the Foundation of all Life; and if it were not for your "Mighty I AM," there would be no Life here on this planet. Now since you are again returning Home, since you are again joyously, gladly, and willingly giving your attention to that Source of Life, that "Presence" of Life that is the Perfecting Power of the Earth, then you are in a position to take Command—notice carefully—of the atmosphere of your Earth, and charge it and fill it with the Harmony of the Spheres.

You have great, Powerful Friends who at your Call, and through your releasing to the best of your ability these Harmonies within the atmosphere of Earth, so are you rendering a Service that will come back and bless you tremendously in the Harmony which will come in your feeling world by the assistance of this Harmony of the Spheres released into action. Therefore I say to you, how great is your privilege and how wonderful it is to see within you that ever-releasing, expanding Power of Light that is the Almighty Glory of Life.

You perhaps have thought largely of harmony as related to music. While Music is the releasing Power of the great Harmonies for Their requirements of Life, yet I say to you, Harmony in the acceptance of your "Presence" of Life becomes the Foundation of all Perfection in the octave of Earth. It is naturally so in the Higher Spheres of Action, but here it requires a conscious stabilizing of that Power of Harmony which releases the other Qualities which you require for your Perfecting Activity.

© 2003 Saint Germain Foundation

Therefore in the great Harmony released into this room tonight—and shall I remind you how great sang the Harmony of Life within you? Did you know that was possible? Did you know, while physically you can be perfectly still—and yet the Light will sing within you! Knowing this opportunity tonight, I took advantage of it and for the first time set into action the Singing Power of the Light within your Heart. May you always remember that; and when you wish to sing, please feel that the Light within you is singing. And I say that earnestly and sincerely to Our songbird. May she ever remember and feel that, that Light will then release from within her Heart and take action. It will be beautiful to behold.

Oh! the Joy, Beloved Ones, of the ability of mankind once again to sustain Harmony—the Outpouring of the Ascended Masters' Divine Love and Blessing that will compel Harmony to be sustained within their feeling world towards all things, all persons, places, and conditions. And if you allow someone to disturb you, the fault is yours and not the other person. Would you believe that! You know the people of Earth have always blamed the other individual for creating disturbance. The other individual would fail to find any response if you did not accept it; therefore, it would discontinue. Therefore remember, within you is the power to respond or not; and if you fail to respond to inharmony, it will pass you by. Do you realize that? Without your attention, no inharmony can reach you; no inharmony can act within your world. Therefore, you may accept or dismiss anything that will be inharmonious about you or try to find action in your world.

One of the greatest Blessings to mankind is the sustaining of Almighty Harmony within their feeling world that leaves

© 2003 Saint Germain Foundation

Life quite free to pour Its Mighty Blessing and Perfection forth to find Its full expression in the action of mankind. My Joy is extremely great tonight! These beloved ones who are serving the Light even yet little realize what these Recitals are doing for the attunement of the beloved Students, and for the creating in the atmosphere of Earth that condition which will be intensified and expanded continuously until It will reach through the mental and feeling world into all activities of harmony, of music, throughout your America.

You see, you do not quite understand how far-reaching are these efforts in the Service of the Light. Every opportunity is utilized to its extreme intensity at this time to give you every possible Assistance; and as some others have said to you, I say to you, Beloved Ones of Earth, once you understand that all authority, ability, and power is within you to maintain Harmony in your feelings will you find the Floodgates of everything your Heart has ever desired flung wide open, and through it will rush the Power of Eternal Life and Perfection. It is so magnificent! It is so easy of attainment now that you have reached this point.

You may not quite realize it, but I assure you, with continued, determined attention to your "Presence," your greatest struggle in life is passed. That should be the greatest encouraging word uttered to mankind, for it is true. There are thousands of the earnest, sincere Students today who have reached a Power of Activity of the Light within them in which they can and will sustain complete Harmony in their feeling world and thus usher in quickly that Victory of the Light within. I urge you to remember these Words tonight, and as the Messengers go on into other fields of action, to hold sustained everything that has been given forth. And will you remember, it has been twenty-five days

of Glory released into your minds, your feeling world, into your city—a Glory that will never be forgotten which will expand in Its Almighty Power of Action through the Call of mankind in your midst.

Perhaps I should say to you tonight and call your attention to the fact that there has come almost the instant fulfilling of that which they said to you in the beginning of your recent Class—that before this year was closed, two million more would have had their attention turned to the "Presence" of Life. Already that has gone forth! *(applause—audience rising)* And crude as it may seem, your Beloved *Unveiled Mysteries* stands before the world through the newspapers which have sent forth that article. *(applause)* Since that is syndicated, it will reach more than two million people. *(applause)* There were some who caused that to be done perhaps thinking to bring ridicule upon *Unveiled Mysteries,* but an Ascended Master Miracle has been performed. *(applause)* That is how sometimes people unknowingly serve so beautifully. *(applause)*

Now behold, Beloved Ones, while you stand a few more moments, notice how mankind—and notice, every one of you beloved ones, how you can in the Power of the "Presence" transform every condition into that of an Ascended Master Miracle. Even that which would be intended to harm you, still may you transmute it and turn it into an Ascended Master Miracle. *(applause)* That is how—Beloved Students, one day you will see how impossible it is to criticize or condemn each other. Do you not see how that in that quality of yours—of the Outpouring of Divine Love and Blessings—how that you would transform and bring an Ascended Master Miracle to your beloved brothers and sisters who might be needing your Call and your assistance? Think what your privilege

© 2003 Saint Germain Foundation

is, and make that Call to Life leaving all Power and Action in the Wisdom of the "Presence." It might bring Miracles, so-called, untold into your individual life and into your midst. *(applause)* Thank you so much.

It is so important that you see the immediate fulfilling of what the Wisdom of these Great Ones has brought to you. Don't pass these things by unnoticed! That is why I call your attention to this tonight, because only a few days ago it was so stated; and it has already taken place today. So it will be with innumerable things as you give unto the "Presence" all Authority and Power to act in your individual world. Try to understand that! Try to feel how, as you refuse to give power to the appearance world, to persons, places, or conditions which might be destructive, then will you rise in the Power of your "Presence," and one day all destructive forces will dissolve and disappear.

I wish earnestly, because of the Power of Life which I represent, to hold this fixed, anchored powerfully in your consciousness and feeling world. Very little comparison has been called forth of your consciousness and your attention. Would it be possible for consciousness to act without your attention? Notice! without your attention, consciousness would be static—still. Therefore, through your attention comes the Power and Activity of consciousness, and by the powerhouse of your feeling world, becomes dynamic action. That is why and how every one of you can produce dynamic action at your Will, at your Call.

You will remember in the past much has been said about consciousness, but little really understood. And will you notice, Beloved Ones—perhaps you have—how loosely mankind uses certain terminology. Because it becomes the customary action of speech, they lose the power that is

© 2003 Saint Germain Foundation

within it. You are having recalled to your attention now the power that lays within it; and Beloved Ones, I speak now from almost every standpoint in Life: in music, in art, in industry, invention, discovery—everything which relates to the comfort of man goes through this same almighty, majestic action. Not one thing can go out from you, not one thing can return to you except by the power of your attention.

Steadily and surely We are bringing to bear upon you the full power and importance of this. You could not do one single thing in the activity of the human octave without the use and power of your attention. Now then, when you come to really understand this, and by the power of your attention focused upon a given objective, you can release the limitless Power of Life into that like a great hydraulic power. And there is not anything you would not achieve, because to use that concentration of attention destructively, you know would cause you to reap the result. Therefore, you would not wish to use it for destructive purposes. But this must now become a mighty part of you in action.

Remember, or perhaps sometime in the near future, They may show you. Take this representation of the Threefold Flame *(pointing to the Unfed Flame symbol on stage)*. By the power of steady attention which is a Focus of Life and Energy, that could become a living thing. That is why I say to you, once you understand the power of the concentration of your attention which allows the Power of Life to flow forth untouched, undisseminated, to an objective, then you will find the power of achievement become more and more instantaneous, like the Messenger in the Instantaneous Healings that take place. He says to that Light Ray, "Hold Your Dominion! Do Your Perfect Work! Release the individual

© 2003 Saint Germain Foundation

now!" And it is done. That will remain until it is done; and that is the Power of concentrated, sustained Action that mankind is coming to know and be able to utilize.

Now remember, in all you require or desire, shall I say to you—remember you are calling into action the Wisdom and Power of Life; therefore you cannot produce harmful results. Now suppose you were to call that into action to stop a destructive activity. Well, that would not be doing harm! And do you now see how you must utilize these Powers of Life, of Light, of Energy, to stop, to dissolve discordant activities? And that is not using It destructively. It is using It to stop destruction. Now for instance, when the Messenger called to the Mighty God Tabor to part the storm and let the plane pass through, He did it within a few minutes; and for several hours that storm was parted and the plane passed through.

I say to you, you still do not fully comprehend the Mighty Friends you have. Will you try each day, each hour, to comprehend more fully the very great Friends which you do have. And will you observe those who have given complete Obedience to the Requirements of the Great Ones—how wonderfully they have progressed. All who will give complete Obedience, put their human self out of the picture, will find great Dominion and Blessing flowing into their worlds. And those who did not think it important to follow the Words of the Ascended Masters will find everything receding from them. Many have experienced this but still do not receive the lesson that is to be learned; but then, experience must be the teacher since the Messengers have offered in so great a kindness this Explanation.

And for instance, just let Me draw to you a few illustrations. Suppose the Great Divine Director asked you to give simple

© 2003 Saint Germain Foundation

Obedience. What do you think that would mean in the Achievement and Victory of your Life Stream? More than you could ever possibly imagine! Then suppose the Mighty Victory asked you to give certain Obedience, that He might give His Victory. If you have any disobedience to that, do you think you would have the Blessing He offered? Now suppose the Great Maha Chohan who is offering so great a Service to the Earth through Nature—if mankind did not give Obedience to His Requests, how do you think He could bring about the disappearing from the Earth all growths that would be destructive to mankind? Yet He has the full Power and Authority at your Call to do so and has come forth to answer your Call.

Now you see what Obedience to His Requirement means? It is joyful, very joyful to see so many thousands ready, willing—joyfully willing to give the slightest Obedience to Their Requests. And as the Messengers have always not only been willing but have given the Obedience, you see their position today. Therefore every one of you can have the great Joy and Perfection of Life flowing forth into action in your world like a great and mighty river as soon as you will determine to make the outer part of you give complete Obedience to the slightest Request of the Great Ones of Wisdom who act alone to help you. And that is worth anyone's effort even if years—let alone the few months that It would require.

O My Beloved Ones, will you not see that? Will you not see how little effort is required of you to come into that Great, Full, and Almighty Perfection of Life! And one of the greatest Blessings is the Outpouring of Love and Blessings upon your fellowman. It will help to sustain and keep you harmonious more easily, more naturally perhaps than any

© 2003 Saint Germain Foundation

other one activity. Now that does not mean that you have to succumb and be a part of any kind of discord, not in the least; but the Harmony and Outpouring of Blessing from you will cause the Powers of Light to in time dissolve all that discord.

You stand in a mighty position tonight to repel, to dissolve and consume every particle of discord; and when you will refuse to allow anyone to talk discord to you, you will find still more easily will come the Perfection and Harmony of Life. It is so Magnificent! We rejoice so extremely with you that so many are reaching this point, and with great determination are taking their stand to the inharmony of Life and refusing absolutely to let it find action in their world. Why, so quickly your bodies would come into such attunement—as the strings of this harp—that every vibration would strike and touch that magnificent, Harmonious Cord.

Remember, Beloved Ones, that each side of your spine is the Harp String of Life in Its own natural colors. One day you will be able to see that in action as the Currents flow up and down those Harp Strings of Life in the attunement of your human form that acts through the Power of the Points of Light within the cells of your body. And when you see that connection with the Points of Light in your body, it will be a revelation that you will never forget once having seen it!

Therefore I say to you, as you continue in your glorious Calls, in your determination to remain harmonious and stabilized in the Acknowledgment of your "Presence" will you find steadily and surely all of these Inner Activities do reveal to you in a manner that makes Them a part of you for constant Instantaneous Action. When you see these

© 2003 Saint Germain Foundation

Activities within your body and know and watch yourself give a Command and see the change take place before your eyes, will you question your ability to govern your human form? I think not! And you are in that position today. You don't have to see that Action in order to govern It. But a great many think so; and if such a quality should be in any of you, remember—I am not observing it—remember, the "Presence" of Life will take it out.

I want you to remember tonight, that having begun under the New Dispensation, one after another Ascension will take place among the Students. Another has just recently taken place. *(applause)* Will you try once again tonight to try to feel with Me what that means to the mankind of Earth! It might have taken many, still—several embodiments—that under this New Dispensation, they will be set Free so rapidly, never again to return to this Earth in human form.

Do you quite realize, after the Ascension that one never returns in physical embodiment? It seems to Me that some do not understand it. You cannot reembody in the physical body after you have made the Ascension. It is impossible. Please get that point definite and firm. After so-called death if you really pass on, you cannot make the Ascension. But under the New Dispensation there will be many who will make It. And friends will suppose they have passed on, but still they will not; they will have taken the Perfection of the human form into the Etheric Body and have been freed from the Earth forever.

The reason We keep bringing this to your attention is We want you to have the clear Understanding of this and not have any confusion in your mind; it might mean a great deal to you. Now remember that in this New Dispensation, none of you are being "urged off"! Just remember, the Earth

© 2003 Saint Germain Foundation

has held you fast for a long time, and when you compel it to release its hold upon you, it will be something quite worthwhile. I wish there were time tonight to go into considerable detail of how the Activity of the Great Ones dovetail just so perfectly in all the action, all requirements of Earth. For instance, the Great Maha Chohan's Activity in connection with and through Nature, responding to your Call to Life as the individual—of working in one Great, Glorious Pattern in Its own Light and Courage and Harmony; for in that great Pattern there is no inharmony.

I say to you who have not yet reached the full acceptance or the full recognition that you can have that Perfect Harmony, do not be discouraged! Go on and on in your Mighty Calls, and if you are firm and determined and refuse to accept appearances any longer, then you will soon find yourself in conditions, in environments, in associations that will give you the greatest Assistance in holding the Harmony of Life. I wish you could, all of you, everyone tonight, understand how within you and the Light here in your Heart is the Authority and Power to compel Harmony about you in spite of anything, and hold Its Dominion there. You believe that friends and relatives and conditions can still disturb you. If you were firm and determined in your "Presence" with no unkindness in your feelings, I assure you, you can conquer any condition about you. Just a little further on—and many of you will remember these Words—and see how your strong, determined effort will find you moving as in a Charmed Sphere as it were, untouched.

Oh, how readily, how quickly beloved mankind could enter in and cause the "Presence" to establish that Tube of Light in Its Magnificent Splendor and Invincibility until you would move in a Charmed World untouched by any

© 2003 Saint Germain Foundation

discord! Try, try, and try again to feel the full importance of that and to know that your Call to the "Presence" of Life is Invincible. Then it only requires your sustained action and the maintaining of Harmony in your feelings to have Its Glorious, Almighty Action take Command and pour Its Radiance out until everywhere you move in touch with the conditions of the outer world, it would be compelled to come into the Harmony with that and act harmoniously to you.

That is the compelling Power of Life, your Life. Now do not accept any longer, do not give power to the appearance world, persons, places or conditions to irritate or disturb you. It is your fault if you do in your understanding of the "Great Presence" of Life at this point. Therefore, after a few experiences and a few reminders, then you will finally come into the full Dominion of that, and no one will ever be able to speak an inharmonious word to you. That is the Power of the Radiance of the Light of your "Presence," as you call It forth and understand It with firm determination, that all that touches It, even the periphery of that Circle, will come into the Harmony of that "Presence" of Life which is Light and knows no opposite.

You are very patient to listen to Me this long. *(applause)* But remember and see if this is not true: for the time that I have taken out of your rest, I will enable you to rest more rapidly *(applause),* and you will awaken in the morning filled with a Joy, Happiness, and Freedom; and from you within, the Light shall sing Its Glory and Victory forever. I thank you. *(applause)*

ATOMS

MR. G.W. BALLARD
WASHINGTON, D.C. • NOVEMBER 9, 1939

In the action of the Light and Substance which the Ascended Masters pour through Their Light Rays into your flesh body and the atmosphere about you, this is the way Their Light Rays act within the cellular structure of your flesh:

We have to begin with your own Life Stream, your own life energy first. Within the Stream of Liquid Light which flows from the Heart of the Electronic Body down through the Higher Mental Body and into the physical Heart anchored within the permanent atom of the Heart—from that to every cell of the body goes a tiny thread of Liquid Light into the electron which is at the center of every cell of your flesh, really within every atom of your flesh.

Around every electron is its radiation which is its force field exactly as the Light radiates out from the electric light bulb. The filament represents the electron; the luminosity from that represents the Light passing out. That is the force field around the electron, so to speak. It is within there the slower rates of vibration register and the condensation of discord takes place from discordant feelings of mankind past and present. That is what registers imperfection within the flesh structure.

When your attention is on something destructive and if your eyes happen to be watching that destructive activity, the form or picture of that is being photographed instantly on this force

© 2003 Saint Germain Foundation

field around every electron in your body. In other words, the picture of destruction is being photographed upon every atom of your flesh while your eyes are looking upon it. That forms the accumulation of density. When that has been continued over the years of one lifetime, it becomes very dense because those photographs of destruction, so to speak—those designs of destructive accumulation piling on top of each other condense, as if I took an electric light bulb and put a red rag, a brown rag, a bright blue rag; and you can continue that as far as you like. That is why you have to have the assistance of the Ascended Masters in order to perfect yourself and gain your Ascension.

When you call to your own "I AM Presence" for assistance, It pours more pressure of that Liquid Light through every electron within the flesh and tries to expand that from within, out. But if the density is very heavy, you don't feel any immediate, quick release unless the Charge is tremendous. But when you call to your own "I AM Presence" to pour forth Its Light through you with greater intensity, It releases more pressure of that Light at the Heart center of every atom. But when you call in addition to that to the Ascended Masters to pour Their Light Substance into your flesh body for healing, into your feeling world, the atmosphere about you, and into your affairs, Their Light Rays also pour into your flesh, into that force field; and Their Light Rays are all electrons, Pure Light Substance, tiny Points of White Fire. And if you will understand this and still yourselves and accept Their Light Substance, Their Light Rays, Their Electrons—since no imperfection dares register upon that Light Substance, because They have charged those electrons with eternally sustained Perfection, when Their Points of White Fire touch into that accumulation of discord around the electrons in your flesh body, they burn out that accumulation.

© 2003 Saint Germain Foundation

Just the same as if I took an electric light bulb around which had been tied rags and shot into it a live wire, and the electricity from that live wire began to burn off the rags, that is the only possible way by which mankind can consume the records of destructive activities. That is why you have to have the assistance of the Ascended Masters. Suppose you take the three Beings, Faith, Hope, and Charity. Saint Germain told you in The "I AM" Discourses, *anyone who is inclined to be angry or irritated should use the Affirmation " 'I AM' Loving Charity"; and calling to your own "I AM Presence" to blaze Its Light through you and consume that irritation and anger, then call to the Great Cosmic Being Charity to dissolve the anger and irritation—and hold the Light Ray from Charity's Heart pouring into your flesh body and your feeling world.*

You can easily consume those destructive impulses and clear your world of irritation and anger. People who have those qualities as a problem to overcome have built around the electrons of the body an accumulation of those patterns which were the quality of irritation and anger, and that quality would be principally red. The Great Being Charity in projecting Her Light Rays into that force field would charge that Electronic Force of that Light Ray with the Power to consume those records. And then the electrons within that Light Ray from the Ascended Master would unite to the electron that is within your own body, so where there had been a force field, you would have many electrons around the central electron instead of around the core. That is why the body became pure; and that would be sustained because the electrons which come in the Light Ray from the Ascended Masters can never be changed by your human irritation and anger you might release in the future, or might be driven at you in the future from outside. Then you are

© 2003 Saint Germain Foundation

accumulating permanent Perfection in the flesh of your body, your emotional body, the atmosphere about you and your world.

Now do you see why you have to have the assistance of these Great Beings, how each one having a special Quality, having the Power to give you that Quality as a permanent Gift of action in your world. The relationship there is exactly the same as if I were to take a student on the harp. My musical consciousness contains certain ideas and certain feelings about the harp. A student sitting in my atmosphere absorbs my feeling. I say, "Interpret it this way," and I play it with more feeling. The student feels my feeling through the music, and having once felt that in his own feeling world can call it forth consciously and at will at any time, because the record has been made in their feeling world.

I say to the student, "This is the way we do things—so and so—" in order to teach the muscles of the student to do the same thing my muscles do. The student puts that into action with his own life energy and is able to do the same thing. Then I have given the electrons, which means the Life, Energy, and Substance of Light of my mental and feeling world, into the mental and feeling world of the student; and they have become permanently his, and he becomes a harpist. I have given the student my harp consciousness, and he is able to do what I do. Who can take that from him? Once I have given it to him and he has made it his own, can anybody take it away from him? Isn't it eternally his, because I, the authority of my Life, have chosen to give the gift of Life to more of Life? And who can change it?

Then do you not see, when the Ascended Masters give you Their Radiation, They are giving you Their Ideas, Their

© 2003 Saint Germain Foundation

Purity, Their Courage, Their Strength, Their Consciousness, Their Acceptance, Their Feeling, Their Intelligence, Their Discrimination, Their Discretion, Their Insight; Their Foresight and Their Memory; Their All-Powerful Concentration. They are giving that to you, and if you will use the Violet Consuming Flame to purify that force field around the electrons of your body, then call to Them to pour Their Light Substance into that force field so that Their Electrons unite with every electron of your body, you become the Consciousness and physical manifestation of the Qualities that They have charged into those electrons; and those are ours to use for Eternity. They won't take them away from you, and no human being can.

Now do you see how healing takes place? That is why Jesus said, "I have thousands of times raised My Hand and drawn down a Light Ray through the flesh of a body, and it has been healed instantly." In other words, the Light Ray He directed contained Electronic Force of such pressure that as It passed through the flesh structure, It burned out instantly every pattern of destructive qualities that had been imposed upon the Light Radiation of the electrons of that individual's body. That is just as mechanical, Dear People, as making biscuits. It is really the same process. If you want good biscuits, you put certain elements in, and you have them. But if you don't put the Light into action, you don't get them.
